“Bro - Tox”

BOTOX FOR MEN

This Father’s Day, give Dad the gift of confidence with “Brotox.” More men are choosing Botox as a quick, effective way to achieve a more refreshed and rested appearance while still looking natural. This minimally invasive treatment can soften forehead lines, crow’s feet, frown lines, and other common signs of aging without downtime or an overdone look. Botox can also help reduce excessive sweating in areas like the underarms and hands, making it a versatile option for both aesthetics and everyday comfort.

FATHER’S DAY SPECIAL!

For the month of June, Dad’s can purchase 40 units of Botox and receive 10 units **FREE!** Call our office today to schedule your appointment.

The P-Shot

Confidence Starts Here.

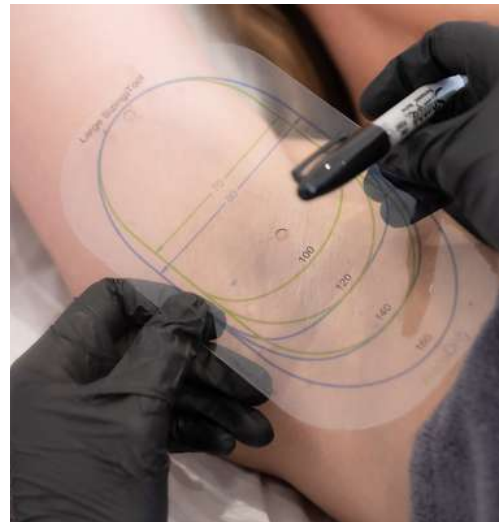

This June, we're highlighting the P-Shot[®], a non-surgical treatment designed to support men's sexual wellness naturally. Using platelet-rich plasma from your own blood, the P-Shot[®] concentrates growth factors that are injected into targeted tissue to help promote repair, rejuvenation, and improved blood flow. This treatment may help support firmness, stronger and longer-lasting erections, sensation, circulation, and stamina, making it a discreet option for men looking to enhance performance without medication or surgery. Some bruising may occur after treatment, but there is no downtime, so patients can return to their normal routine right away.

TRANSFORM YOUR CONFIDENCE WITH MIRADRY TREATMENT

Stay Dry All Summer Long...

Tired of planning your outfits around underarm sweat? miraDry® offers a long-lasting solution by permanently reducing sweat and odor glands in the underarm area. Whether you struggle with excessive sweating or simply want to feel more comfortable and confident, this FDA-cleared treatment can help you enjoy summer activities, lighter clothing, and busy days without constantly worrying about sweat stains or odor.

miraDry® is a non-surgical, in-office treatment performed right here at Diehl Plastic Surgery. During the procedure, the underarm area is numbered to maximize comfort while the miraDry® device uses controlled electromagnetic energy to target and eliminate sweat and odor glands beneath the skin. Treatment sessions are quick, require little to no downtime, and many patients notice immediate improvement with lasting results.

THIS MONTH'S MUST-HAVE...

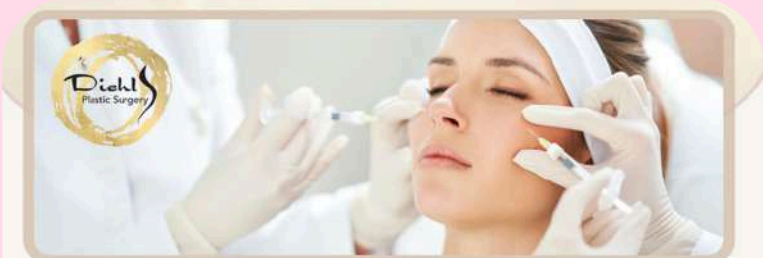

ElaMD UV Clear SPF 46 – a lightweight, dermatologist-loved sunscreen that delivers powerful daily protection without feeling heavy or greasy. Formulated with niacinamide, hyaluronic acid, and lactic acid, it helps calm sensitive or acne-prone skin while protecting against harmful UVA and UVB rays. It layers beautifully under makeup, won't clog pores, and leaves skin with a clean, breathable finish.

BECOME A MEMBER AND SAVE ALL YEAR
